

TREK MADONE 5.2 WSD TRIPLE

Watch the miles fly by on Trek's Madone 5.2 WSD. Sporting Trek's OLCV carbon frame, this women's specific road rocket boasts ingenious technology for a superior ride. Trek pulls out all their tricks to provide a frame that saves weight and reduces maintenance. This machine is equipped with Bontrager's corner-carving carbon fork and Shimano's Ultegra 10-speed components with triple chaining cranks for flawless shifting and braking. You'll love the Bontrager Race Lite wheels and women's-specific saddle and bars as well.

My wife got this bike a few years ago, but is looking for something new. It has primarily seen dry weather but the frame does show signs of use, as expected. This bike has been lovingly ridden so there are blemishes, purely cosmetic.

Recently tuned up at my LBS. This is one great bike!
